## Public Works Message

Statistically, March & April are when water lines are most apt to freeze. If you live in the Town of Rivers here are some signs that might indicate a frozen water line:

If you see BROWN water coming from your taps

If you have experienced frozen lines in the past

If we've turned off your by-pass valve in the past (let us know and we will be sure it's turned on!)

**If your water line does freeze, call our Utility Emergency Line 204-573-7841**

## Employment Opportunity

We are now accepting resumes for our Summer Green Team Positions!

Details available at:  
[www.riversdalyc.ca/jobs](http://www.riversdalyc.ca/jobs)

## Recreation Programs

Spring Break Camp
